IMPACT OF PUPIL PREMIUM SPENDING 2016/17

The school tracks of progress over time for each pupil so we can quickly identify any dips and develop sensible strategies and interventions to promote improvement.

The impact of interventions is analysed termly as assessment data is gathered and input/follow up is put in place if an intervention is not having the desired impact. Information used in this analysis includes:

- End of key stage data
- Termly assessments
- Outcomes of observations, work scrutinies, and learning walks
- Feedback from staff, pupils and parents

The major focus of our work this year has been around improving children's reading comprehension skills. The impact of this has been an increase in attainment for Disadvantaged pupils compared to the national average for the cohort as a whole. Developing problem-solving skills in Maths has also been a focus, resulting in Disadvantaged pupils reaching the average for the cohort as a whole. There is still a gap in attainment in Writing. This is a major focus for 2017-18.
